EDUCATION

Bachelor of Science (Computer Science) - BSCS

2014 - 2018

University of Arid Agricultural (Rawalpindi, Pakistan)

WORK EXPERIENCE

AKSA-SDS

Mar 2023 - Present

Senior Software Engineer - iOS

- Playing a pivotal role in development and maintenance of Jazzcash (Pakistan's top personal waller application) application, ensuring smooth functionality and top-notch user experience.
- Contributing to the development of new features in both apps (consumer and merchant).
- Led implementation of Saving wallet feature, Motorway Insurance, sell jazz load, Request to pay, merchant landing management system, and Order QR for merchants.

Codes Orbit

Oct 2020 - Mar 2023

Software Engineer - iOS

- Developed intuitive iOS apps using Swift / SwiftUI. Actively researched and identified emerging technologies and frameworks suitable for the application.
- Developed new applications from scratch and integrated new features into existing iOS apps.
- Communicated effectively with clients and managers, and participated in the development of FRS and wireframes.

Funsol Technologies

Feb 2020 - Oct 2020

iOS Developer

- Developed iOS apps using Swift/SwiftUI, prioritizing UI/UX to ensure user satisfaction.
- Improved app performance to deliver high-quality and error-free user experience.
- Led end-to-end process of app submission to App Store.

Goal Tech Groups (pvt) Ltd.

Jan 2019 - Feb 2020

iOS Developer

- Integrated new features and functionalities into existing iOS applications.
- Learned good coding practices for clean and well-documented code, SOLID Principles, and learned version control systems (e.g., git) to maintain the codebase.
- worked closely with UI/UX, backend, and QA teams to deliver seamless app integration.

PROJECTS

Jazz Cash

[View in App Store](#)

- JazzCash is one of the largest Fintech (personal wallet) application in Pakistan.
- Implemented variety of features including Saving Wallet, Request to pay, LMS, and Order QR.
